

**Goal #2 – We will build on our strengths to improve school and district climate for students, staff and community.**

<b>Activities</b>	<b>Responsibility</b>	<b>Time Frame</b>	<b>Assessment</b>	<b>What's Next</b>
Improve the accountability of students for their own behavior.	Students	Ongoing	Students looking at their own behavior data and developing personal improvement plans resulting in fewer disciplinary referrals and improved academic performance.	Building principals and staffs implementing processes which continuously improve the school's behavior management system, enabling the "assessment" to occur.
Promote in students the value of having an education.	Teachers, principals and staff in each building	Annual analysis	Increased student attendance; seniors choosing to take additional credits beyond required	An analysis of "does attendance reflect the student's value of having an education?"
Strengthen the role of site councils and increase community involvement.	School principals		Two community members on the site council; site council meets regularly	Increased involvement of site councils; data driven decision making.
