

It is the LAW to get shots for school

It's the law for students to be up-to-date on their shots for school.

Private and public schools, pre-schools, and child care centers are currently sending out letters if your child/children are not up-to-date.

If not up-to-date by February 20, 2019 your student will be excluded from school.

See back for information on how to make an appointment at a Lincoln County clinic
or
contact your child's healthcare provider.
