

It is the LAW to get shots for school

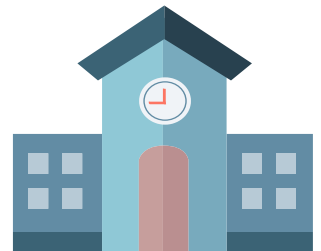

It's the law for students to be up-to-date on their shots for school.

Private and public schools, pre-schools, and child care centers are currently sending out letters if your child/children are not up-to-date.

If not up-to-date by February 19, 2020 your student will be excluded from school.

See back for information on how to make an appointment at a Lincoln County clinic
or
contact your child's healthcare provider.

Public Health & Any provider can print you a copy of your child's vaccination record

*You can also get shots at your health care provider and/or the pharmacy if your child is 7 years or older.
