

### **Assignment of Students to Schools\*\***

Students are assigned to the school in the attendance area in which they reside. A parent may request a transfer to a school outside of their child's assigned school by following the procedures outlined in the accompanying administrative regulation JECC-AR - Assignment of Students to Schools.

When granting a transfer request the superintendent or designee will consider:

1. The effect on either school involved in terms of space, programs or support facilities; and
2. Any special need a student or family may have that would keep the student from being successful in his/her assigned school.

When a transfer is granted, it will stay in effect through the highest grade level of the school the student is being transferred to. The transfer may be revoked for the following reasons:

1. The population of the school exceeds the building's capacity, either by space or staffing;
2. The student has inappropriate behavior;
3. The student has poor attendance;
4. The student has poor academic performance.

The Board directs the superintendent to develop administrative regulations to implement this policy.

END OF POLICY
