

Student Discipline

The principal, in cooperation with the building staff, will develop a disciplinary philosophy designed to produce behavioral changes that will enable students to develop the self-discipline necessary to remain in school and to function successfully in their educational and social environments.

The teacher's classroom management procedures will be consistent with the Student Code of Conduct (Board policy JFC - Student Code of Conduct), the Board policy on JG - Student Discipline, and the building's agreed upon expectations of student behavior.

Each teacher will develop classroom expectations and procedures appropriate to the subject matter and grade level of each class he/she has been assigned to teach prior to the offering of that class.
