

The Compass Employee Recognition Program

Purpose

The purpose of the Compass Employee Recognition Program is to recognize the school district employees who have demonstrated a high level of commitment, effectiveness, and efficiency in performance of their professional responsibilities or work-related duties. They demonstrate service excellence in Lincoln County School District. The attempt through the Compass Recognition Program is to recognize employees for their efforts on behalf of Lincoln County School District.

The Partners in Education Award is to honor those who have benefitted the school district or enhanced its mission. This recognition is designed to identify a member of the community and/or organization that has made a significant contribution to the Lincoln County School District.

Any employee, parent, or patron of Lincoln County School District may nominate an employee or partner in education for recognition by the Superintendent and the Board of Education in June. Nominations will be accepted through the electronic Google form. Any part-time or full time employee is eligible to be nominated by self-nomination or by another employee or member of the community.
